

Little Giant Mini Split Pump In Trunking - EC-1 Kit

The Little Giant EC-1K is a mini split condensate pump housed within an aesthetically-pleasing white trunking to match new brands of air conditioning units. The pump is located within the trunking on a unique vibration mounting system. This allows greater room for the refrigeration pipes, easy access to service and maintain the pump and ensures the decibel rating is comparable to other “silent” pumps in the market.

The two piece components of the pump and reservoir come with push and click connections offering easy access to service and maintain. The reservoir has three outlets, is clear and the float is mounted in a unique way which means it will never sit in residual water, this enhances the lifespan of the product. Generous room is provided in the lower elbow duct piece allowing refrigeration pipes to be installed with a single 90 degree bend.

Max Flow	10 LPH
Max Shut Off	10 m
Discharge Size	1/4"
IP	20
Amps	0.1
Volts	230 V
Hz	50 Hz
Decibel Rating	21 dB(A)
High Level Alarm	NC* 230V / 8A

Pump Only Dimensions

Height	104 mm
Length	46 mm
Width	58 mm
Weight	0.8 kg

Reservoir Dimensions

Height	84 mm
Length	46 mm
Width	38 mm

* NC - Normally Closed

Features:

- Three piece matching white trunking supplied with protective film - length, arm and elbow.
- Pump has unique anti vibration qualities.
- Push and click connections from pump to reservoir.
- Low noise level - 21 db(A).
- Generous space in elbow duct for refrigeration pipes.
- Easy to service, maintain and install.
- Clear reservoir has 3 outlets and can be easily serviced.
- Multiple accessories supplied as standard in the box.
